

# SACCHAROMYCES BOULARDII

## 250mg

### N068

*Saccharomyces boulardii* is a unique, beneficial yeast which has evolved in the human food chain since ancestral times and has been used worldwide as a food supplement for more than half a century. It provides the digestive tract with support against a broad array of pathogens.

- This supplement is ideal for use during and post-antibiotic therapy and particularly for those with bacterial diarrhoea.
- *Saccharomyces boulardii* is unique in that it helps to displace all other yeast species (such as *Candida*) and prevents their colonisation.
- Each capsule contains 250mg of *Saccharomyces boulardii* (5 billion CFU\*) in a shelf-stable form so no need for refrigeration.
- Stomach acid and bile resistant.

\*CFU – colony forming units

### Product Information:

30 capsules = 30 days supply

### Suitable for:

Men, women, and children (aged 4 years and over)

### Form:

Capsule

### Saccharomyces Boulardii

Each capsule gives 250mg of *Saccharomyces boulardii*, which will provide on average  $5 \times 10^9$  viable live strains.
